Dear Dr Khan,

Appointment 09/09/2024 Spire Cardiff Hospital

**Patient details: Mr Glyn Morgan Loughman DOB: 03/10/1957,
8 Gainsborough Road, Penarth, CF64 2LD
Email: transcendconsultingrooms@gmail.com
Insurance details: My Rates**

I understand that Glyn is going to proceed with a urological operation shortly for phimosis. Certainly from my perspective it is safe for him to stop his anticoagulants for five days prior to the operation and he then should restart when they are happy with his wound.

Yours sincerely

Prof Richard Anderson
